Explanation of the remarks in the table:

Rem.: Observer[s]/Telescope/Detector

[a] Arlot's modified method − see Arena et al., 2011, IBVS 5997

[b] as given by KvW method, adopted to obtain the Times of minimum

[c]

I/II deeper/shallower minimum

i/ii the type of minimum assumed at the phase 0/0.5 (circular orbits always have this behavior)
